About the lecturer

Elaine Fediuk, TPD, Head of CAD Design

Elaine Fediuk received her degree in Dental Technology in 2001 from CEPEO in Brazil. She has dedicated her career to planning and manufacturing orthodontic and functional appliances as well as full removable prosthetics, before starting to work with clear aligners in 2009.

With more than 21 years' experience from dental labs, Fediuk has completed over 6,500 aligner treatments setups and worked for a number of renowned labs. Throughout this time, she has always kept up with the latest technologies and the digitalisation of dentistry.

Today, Fediuk is Head of the CAD and Manufacturing departments at HeySmile.

Location

Plandent Oy
